

Crystal Pacific Windows & Doors Workforce Expands

- Number of Manufacturing Employees Approaches 100 Milestone -

RIVERSIDE, CA, March 15, 2019 – Crystal Pacific Window & Door Systems (known as Crystal California) has dramatically increased its workforce in recent years and is now approaching the 100-employee milestone. As of the end of 2018, the workforce size has increased almost 80% in the two years since early 2017 and 113% in the four years since the end of 2014. The seven-year-old vinyl and uPVC window manufacturer, located in Riverside, CA, is the West Coast division of national award-winning manufacturer Crystal Window & Door Systems headquartered in New York City.

Riverside, CA-based Crystal Pacific Window & Door Systems (known as Crystal California) has expanded its workforce almost 80% since early 2017 in response to increased sales and market presence.

Sergio Garcia, General Manager for Crystal California, stated “Our workforce growth is directly attributable to our enormous success introducing new products, increasing sales, and expanding our presence in the marketplace. Crystal’s workforce growth exemplifies the resurgent national economy and the rebounding Riverside business community. Of course, credit also goes back to our parent company’s strategic vision seven years ago, during economically challenging times, to launch a West Coast operation here in Riverside.”

Over the past few years, the company has made great strides to bring online new production equipment, launch new products, grow sales, and add experienced production workers and sales staff. Increasingly, Crystal California is involved with supplying large notable construction projects as well as serving major window dealer/distributors in California and neighboring states.

###
