North or South – The Choice is Crystal!

Crystal high-performance energy efficient products can be found in beautiful new development projects across the USA, in both northern and southern climates. Here are two of Crystal's latest notable projects demonstrating why Crystal is the choice for discriminating developers, builders, architects, property owners, and fenestration contractors everywhere.

Uptown 500 Chicago Area

Products Supplied for *Uptown 500*:

- Approx. 1,300 Crystal Vinyl Windows and Doors
- Series 300 Single-Hung and Picture Windows
- Series 1500 Sliding Patio Doors
- Factory- and field-mulled in large configurations

Crystal supplied nearly 1,300 energy efficient Series 300 vinyl windows and Series 1500 sliding patio doors for **Uptown 500**, a new \$90 million luxury multi-family and commercial property in Wheeling, IL just outside Chicago.

“Early in the project, Crystal invited the developer KR Developments to tour our production facility in Chicago. They were impressed with our quality manufacturing processes,” said Frank Ganninger, Sales Manager. “With our strong manufacturing presence in Chicago, Crystal is a popular choice in the city and surrounding area.”

Crystal worked closely with the **Uptown 500** architect, BSB Designs of Chicago, to ensure the windows would meet energy and performance specifications for the region. The Crystal Series 300 vinyl windows offer great thermal efficiency, perfect for both winter and summer weather in Illinois. The windows were specified with Crystal's quality two-tone (white interior/black exterior) finish to meet the design aesthetics for all exterior and interior spaces.

The Crystal Vinyl Series 300 windows and Series 1500 sliding doors offer great energy efficiency, with strong, full-fusion frames, integral nailing fins to speed installation, and ergonomic hardware for ease of operation.

Crystal's first projects in Florida are at the University of Florida's main campus in Gainesville, offering state-of-the-art off-campus student housing with ground floor retail space. **The Hub on Third** and **The Hub on Campus Gainesville** each used a variety of Crystal aluminum commercial window and door products, and Crystal worked with national design/build firm ARCO National Construction to optimize their placement for the two Hub properties.

Due to the location of the new Hub buildings in Central Florida, which is subject to high winds, all façade materials including windows must meet stringent state building codes. Crystal's Engineering Department submitted product structural and energy performance test results and drawings to the Florida Department of Business & Professional Regulation (DBPR), which approves construction materials for compliance with the state building code. All the Crystal windows and doors submitted attained approval for use across much of Florida and are included in the DBPR online directory.

Products Supplied for The Hub Projects:

- 2,137 Aluminum Windows/ Doors
- Series 2000A Double-Hung
- Series 2100 Fixed
- Series 2300/Series 5600 Sliders
- Series 8500 Project-Out/Fixed
- Series 1240 Sliding Patio Doors
- Series 1450 Terrace Doors

Crystal Named A Top New York MBE Firm!

CRAIN'S
 NEW YORK BUSINESS
 CRAINNEWYORK.COM | MAY 3, 2021

THE LIST
 NY AREA'S LARGEST MINORITY-OWNED COMPANIES
 Ranked by 2020 revenue

Crystal Windows Ranked 9th for 2021

RANK	COMPANY	INDUSTRY	2020 REVENUE (\$ MIL)	2020 REVENUE (\$ MIL) % CHG	2020 REVENUE (\$ MIL) % CHG	2020 REVENUE (\$ MIL) % CHG
1	Alamo Pacific Corp.	Construction	1,100.0	10.0%	10.0%	10.0%
2	Alamo Pacific Corp.	Construction	1,000.0	10.0%	10.0%	10.0%
3	Alamo Pacific Corp.	Construction	900.0	10.0%	10.0%	10.0%
9	Crystal Windows & Door Systems, Ltd.	Manufacturing	100.0	10.0%	10.0%	10.0%

In its May 3, 2021, edition, noted publication **Crain's New York Business** ranked Crystal Windows 9th on its list of the New York area's largest minority-owned companies. Included in the Crain's list for almost a quarter century, since 1998, Crystal has its highest achievement to date with the annual Crain's list.

The Crain's list is comprised of the largest privately held firms that are at least 51% minority-owned and headquartered in New York City or in seven surrounding New York and New Jersey counties. The ranking is based on annual company revenues from the prior year.
