

Gamco Corp.
A Top 40
Architectural
Metal Company

Crystal's business affiliate and supplier **Gamco Corporation** has been recognized once again by the leading national industry publication *Glass Magazine*. For the 6th consecutive year, **Gamco** has been named to Glass Magazine's List of Top 40 Metal Companies in North America.

Congratulations to the entire team at **Gamco!** Keep up the good work!

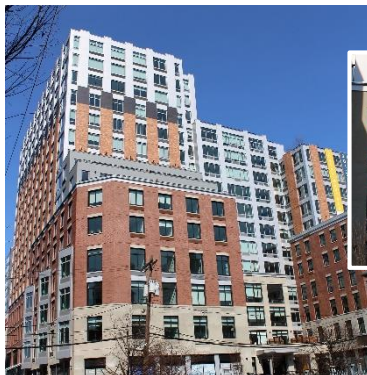

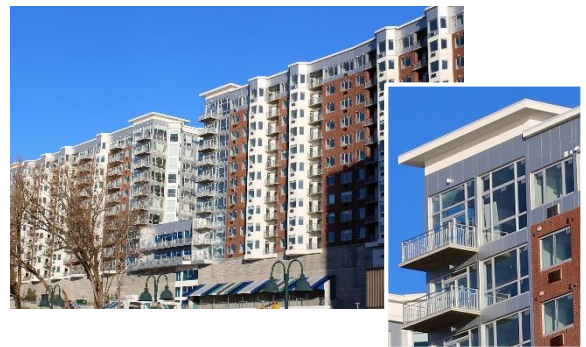

“Great Glazing” National Recognition for 2 Crystal Projects!

Two major new construction projects for which Crystal supplied high-end energy efficient aluminum window systems were recognized in 2018 as “Great Glazing” projects by national industry publication *Glass Magazine*.

River Tides at Greystone, in Yonkers, NY, used several different Crystal products to achieve expansive views overlooking the Hudson River. Over 2,250 Crystal Series 8600 outswing casement, 8610 picture, Series 5600 sliding, and Series 5100 picture windows along with Series 1280 sliding patio doors and Series 1450 swing terrace doors created the contemporary look of this 330-unit apartment complex.

The Lenox in Jersey City, NJ, used over 2,040 Crystal Series 5600 sliding, Series 5100 picture, and Series 8910 picture windows to achieve floor-to-ceiling window walls as large as 184” by 122”. Crystal also supplied louvers which were factory installed within window frames to accommodate apartment PTAC units.

Catalog/Price Book Goes Digital

Effective January 2019, the Crystal Comprehensive Product Catalog and List Pricing Book is now available in digital format. The new 104-page PDF file contains all the latest information on Crystal's vast product line as well as current list prices for all windows, doors, options, and accessories. Part of the company's environmental sustainability efforts, the digital catalog/price book saves time, resources, dollars, and space requirements, while reducing waste. Updates and new products can be added as needed, so customers always have the most current information.

Please contact your Crystal sales representative or the Marketing Department (marketing@crystalwindows.com) to have a PDF copy emailed to you.

Crystal Project Wins Building Award!

A spectacular new luxury residential property which features Crystal window and door products received top honors from the Queens & Bronx Builders Association at its December 2018 Awards Dinner. Winning in the Residential Apartment Buildings category, the Allura Waterfront Resort in Queens, New York is a new 6-story complex with 134 apartments. Crystal high-end architectural aluminum windows and doors, over 840 total, were combined in floor-to-ceiling configurations to provide great views of LaGuardia Airport and the Manhattan skyline.

Above: Crystal project manager Joe Zhao enjoys the view from an award-winning Allura waterfront apartment.

Crystal's aluminum Series 8500 outswing casement and Series 8510 fixed picture windows yield the strength, weather resistance, energy efficiency, and sound attenuation necessary for the location, as well as beauty and clean narrow contemporary sightlines to complement the architect's design. Crystal's aluminum Series 1280 sliding patio doors and Series 1450 swing terrace doors perfectly matched the window systems.

Crystal affiliate and supplier Gamco Corporation provided a custom designed, strength tested metal and glass railing system for the extensive Allura balconies.

Crystal Sponsors International Art Exhibit

The Crystal Foundation, Crystal's philanthropic arm, unveiled its latest art exhibit at the New York headquarters. The **Tree of Hope** is comprised of 25,000 baseballs donated by professional and amateur teams from over 30 countries and illuminated by 10,000 LED lights. The modern artwork symbolizes the spirit and unity that art and sports bring to the world, and was created by Taiwanese artist Lin Shih-Pao, who is renowned for using recycled materials. New York's own Mets and Yankees, and the Orioles, Phillies, and many others contributed used and signed baseballs for this international project!
