5/8" Flat Grid

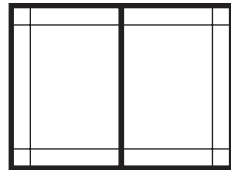

1" Sculptured Grid

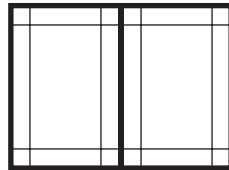

PATTERNS

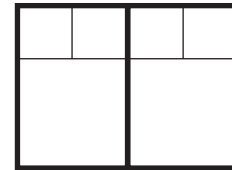

Colonial
(Traditional)

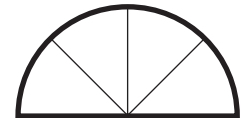

Marginal
(6-lite Perimeter)

Queen Anne
(9-lite Perimeter)

Valance
(Top Row)

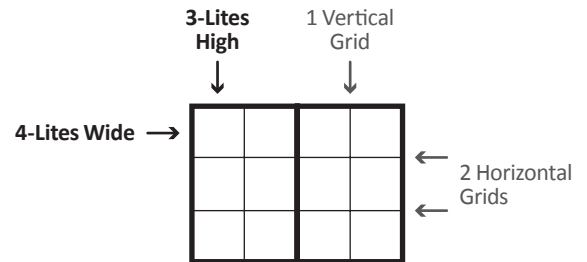

Starburst
(3-spoke)

COLONIAL GRIDS

Colonial grid lite sizes are based around 12 inches for windows and 15 inches for doors. Depending on the configuration and size of the window or door, the lites can be less within in a few inches or more within a couple of inches.

If the default number of colonial lites is not what you require, please provide a drawing of the preferred number of lites. Otherwise the default will be used.

If you feel you need more lites or grid in your colonial pattern, keep in mind: less grid, more view.

Lites Per Window: 4W3H
Grids Per Panel: 1V2H

MARGINAL, QUEEN ANNE & VALANCE GRIDS

Valance grid height is 10 inches to bottom of grid. Marginal and Queen Anne grids are 4 inches in width and height to center of grid. All based on fixed panel.

NOTE: Drawing required for special grid patterns.
